BELLISSIMO

Unleash your cutting edge

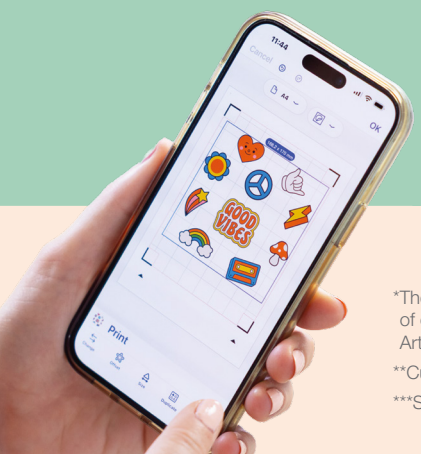

Create Cut *Stick* Repeat

Bellissimo is Brother's compact cutting machine, operated via the Artspira app. Simple to use and equipped with self-adjusting cutting technology, it offers an intuitive and stress-free creative experience.

Developed as a matless cutting machine, the Bellissimo is simple to use: just load your material** and let the cutting blade do the work. Without a mat, the Bellissimo can half-cut or perforate-cut material. You can also use a mat*** when you want to make full cuts or when using specialist materials**.

brother
at your side

With the creative power of Artspira*, you can create your own designs, transform them using AI, convert an image into cutting data, create your own stickers and discover amazing designs to cut out in no time.

POWERED BY Artspira

*The Bellissimo CT1 is powered by Brother's Artspira design app. This app must be downloaded and used free of charge by all users of compatible Brother machines equipped with WLAN wireless connection. However, some features require a paid subscription to the Artspira+ app and may be limited depending on your country of residence. See the app's terms and conditions for more details.

**Cuts up to 0.5 mm thick in half-cut and perforation cutting. Up to 1 mm for other cuts.

***Sheet smaller than A4/Letter size, 305 mm wide, or for use with certain types of material.

Your creative ally

- Powered by the Artspira app
- Self-adjusting cutting technology – automatically sets cutting depth and pressure
- Full-cut, half-cut and perforation cutting modes
- Sticker maker
- Drawing and text customisation tools
- Matless cutting (cutting with mat*** also possible)
- Cutting area with a maximum width of 11.7” (297 mm)
- Bluetooth connectivity
- 2-year warranty

Brother’s self-adjusting cutting technology

Thanks to Brother’s self-adjusting cutting technology, you just need to load your material** or mat*** and the blade automatically detects the thickness and adjusts the cutting pressure. You can still fine-tune cutting settings via the Artspira app.

100 free cutting designs just for you!

Connect your Bellissimo to Artspira and get 100 free, exclusive cutting designs that are only available to Bellissimo users. 60 cutting-only designs, plus 40 Print and Cut designs (printer required, sold separately).

Cut, stick, draw and more!

Perforate-cut, half-cut, full-cut and draw (optional accessory required, sold separately) on a variety of materials** including vinyl, stickers, paper and card. Perfect for sticker-making, homewares, upcycling, accessories, card-making, bookbinding and more!
